THE PACIFIC TELEPHONE and TELEGRAPH COMPANY

SEE INTRODUCTORY SECTION FOR
EMERGENCY CALLS AND OTHER IMPORTANT MATTERS

LONG DISTANCE SERVICE

STATION CALLS

When you will talk with anyone who answers at an individual line, or party line telephone, or private switchboard. Station calls are placed by calling "Long Distance" or dialing "Operator," then telling her the city or town, the out-of-town telephone number, if you have it, or the name under which it is listed.

PERSON CALLS

When you want to reach a particular person, or a particular extension telephone, or department connected through a private switchboard. Person calls are placed by calling "Long Distance" or dialing "Operator," then telling her the city or town, the out-of-town telephone number if you have it, or the name under which it is listed, and the name of the person, the extension telephone number, or department you want.

COLLECT CALLS

Upon request, the charges on calls to most points within the United States and its Territories, and to certain foreign countries may be collected at the called station.

RATES TO SOME OUT-OF-TOWN POINTS

(Rates to Points Not Listed May Be Obtained By Calling "Long Distance" or Dialing "Operator")

NIGHT AND SUNDAY RATES APPLY FROM 6 P. M. TO 4:30 A. M. AND ALL DAY SUNDAY

BUSINESS OFFICE LOCATION

The Business Office of the Company is located at 470 Commercial St., Astoria, Oregon. The Business Office is open from 8:30 A.M. to 5:00 P.M. Monday through Friday and is closed Saturday.

BILLS AND PAYMENTS

Bills for service are usually issued monthly and are due and payable upon presentation.

When paying in person it will save your time if you have your bill with you. When paying by mail, please enclose the bill stub with your check. If you need additional assistance or explanation regarding your bill, the Business Office will be glad to help you.

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

DIRECTORY ERRORS

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office. We cordially invite you to make use of these directories. If you desire any copies they may be secured at an additional service charge by arrangement with the Business Office.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

SHIP TELEPHONE SERVICE

This service provides two-way telephone communication between a telephone on land and a ship equipped with a radio telephone or between ships when within range of any one of six Telephone Company Pacific Coast Shore Stations. To make a call from a telephone on land call "Long Distance" or dial "Operator" and ask for "Marine Operator" and tell her you wish to place a call to a ship, giving her the name of the ship and its approximate location.

DIAL SERVICE

LOCAL CALLS

Do not start to dail until you hear the dial tone—a steady hum which is heard when the equipment is ready to receive your call.

Dial carefully. Do not hurry or retard the dial.

Dial only the figures of the listed number.

TO CALL ANOTHER PARTY ON YOUR OWN LINE

WARRENTON—Telephone numbers of other customers on your line will have the same first three figures as your telephone number. To call another party on your line, dial "9", then the last figure of your own number and then the last figure of the desired party's number. Immediately after the dialing is completed hang up the receiver. Ringing will start and continue until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

VOICE RECORDING SIGNAL

A short high "beep" tone heard on the telephone about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

When Looking for a Dealer in your Neighborhood

Time and effort may be saved if the article or service you want to buy can be found in your neighborhood You'll find the location of your neighborhood dealer when you

LOOK IN THE

Classified

TELEPHONE SECTION

The Yellow Pages Tell You Where

"LIPS CLOSE TO THE MOUTHPIECE FOR BEST RESULTS"

It's as important to keep the transmitter close to your mouth as it is to have the receiver close to your ear. For best results please speak slowly and clearly in an even tone of voice, directly into the transmitter, with your lips close to the mouthpiece.

Get the right number first

Get it from the directory. If there's any doubt about it, look up the number before you call. It's mighty easy to get numbers twisted if you depend on memory alone. And since looking up numbers in the directory is so easy, it's a good way to save time in making your calls.

Building your dream home soon?
Don't forget to plan ahead for concealed telephone wiring

Whether you'll want only one or a number of telephones, the time to plan for built-in concealed wire facilities is when your home is still in the blueprint stage.

For then you can be certain you won't later have to tear up part of your flooring or bring the wire in along the baseboard.

So decide in advance on convenient locations, and specify that conduit be installed during construction. This provides a metal tube through which wires may be drawn when your telephone is installed.

Our Architects' and Builders' Service will help you in every way possible at no charge.
